Compassionate care and support for senior living

Welcome

At Alcyone Healthcare we are very proud and excited to offer a brand new and refreshing care concept to support senior living.

Alcyone Healthcare combines new prestigious accommodation with a uniquely progressive ethos of care, forged from over 30 years of experience within the care sector.

We know how important it is to maintain control over your own life and that is the reason we place individual needs at the very heart of everything we do, fully supporting residents to maintain independence and empowering individuals to make their own choices.

We strongly believe that delivering excellence in care is heavily dependent upon co-operative engagement between residents, family, the professional healthcare services (with whom we work closely) and ourselves.

It is our aim to ensure we provide excellence in care within exceptional accommodation.

A place that you feel proud to call home

“Perfectly positioned to allow freedom and immediate access to all that is happening in the local area.”

Excellence in care

Our care is delivered by experienced carers to empower residents and their families to achieve their goals, enabling them to live happy, meaningful and fulfilling lives as independently as possible.

We offer a range of essential 'person first' care services that are designed to be flexible and unique;

- Dementia care
- Dementia day care
- Overnight and convalescence care
- Residential senior social care
- Respite and day care

We are committed to consistently delivering the very highest standards of care and in-house services, exceeding all current regulatory standards to guarantee excellence.

Our staff are experienced and well trained to manage the unique needs of residents to ensure dignity and compassion at the very heart of the care services that we provide.

Passionate about food

Excellence in food quality, service, variety and choice lie at the heart of our philosophy.

A well balanced, well cooked, nutritious diet is paramount to promote good health and general well-being as part of a healthy lifestyle. All of our chefs are also trained to observe current guidance for eating healthy in older age.

All food and beverages are carefully prepared in our own kitchen by a team of qualified chefs, using traditional recipes and methods to present residents with high quality, home style fayre.

Mealtimes are flexible to allow residents to enjoy a relaxed meal, either in the company of friends in our attractive dining settings, alfresco or in the comfort and privacy of their own room.

Menus are planned and designed to make maximum use of local produce, fresh meat, fish, fruit and vegetables and wholesome ingredients. Key considerations of our menu planning include culinary, social, cultural and religious influence, ensuring all residents are catered for.

Fulfilment and activities

We place a huge importance on our service principle 'fulfilment' to support our residents and their families and friends to achieve their goals, maintain daily living skills and lead as fulfilling a life as possible.

Hobbies, interests, socialising, spiritual and emotional activities play a tremendously vital role to our residents and give their lives purpose and meaning. They stimulate and motivate residents, enabling fulfilment and the feeling of completeness.

Residents age, regardless of their physical or mental health condition, has an impact on some of their abilities. We focus and work with residents core abilities and strengths to maintain their purpose in life, helping their lives become more enjoyable, fulfilling and meaningful.

This is why, whatever residents preferred pace of life, we listen carefully to residents and families to draw on individual abilities, history and personality to create a personalised social, spiritual and emotional care plan. We also welcome family and friends to join in and help us to arrange and organise activities.

Respite and day care

Our respite and day care service is designed to be flexible and unique, exceeding all current regulatory standards to guarantee excellence.

All of our respite and day care services are tailor made to ensure activities, outings and events focus on maintaining life skills, promote independence and help our day care clients retain access to local amenities.

These services include dedicated, fully escorted transport door to door with lift access for wheelchairs, personal care by fully trained care staff, bathing, chiropody, hairdressing, beauty therapy and lunch refreshments and snacks.

We provide support seven days a week and cater for both older clients and those living with dementia, whilst accepting both local authority and personal / private care payments.

Our clients also qualify for automatic free 'Friends of the Home' membership and enjoy free access to our bar, cafe, cinema, hairdressers and beauty spa. We also keep in touch and invite them to attend special activities and events.

Making the right decision

We appreciate choosing the right care home that will consistently provide the highest level of care and support is a very difficult proposition and should not be taken lightly.

We are here to support residents and their families at every step along the way, spending as much time as is needed offering advice to overcome any anxieties or concerns.

As it is important to us to ensure that the final decision is in everyone's best interest, we offer a variety of trials that may help to make your decision easier. For example, a day visit, an overnight stay, a short respite stay, or the option to simply sample our meals, join in with any of the activities or make full use of our facilities.

We actively encourage residents and families to consider all of the alternatives that may be available, ensuring we offer the best guidance possible before decisions are made.

Once the decision is made to make Beadling Manor their new home, we make every effort to ensure the moving process is as simple and effortless as possible for residents.

Support for you, and the people who matter most.

“Person centred, supportive care with a commitment to listen carefully and respond positively to you and your family’s needs.”
